Save the Date

You are invited to the Second Annual Bay Area BEMER Medical Symposium highlighting ongoing experience and case studies from our medical experts and practitioners.

Speakers will discuss a wide variety of conditions as well as injuries helped by BEMER physical vascular therapy.

BEMER has been scientifically proven to increase blood flow in the micro vessels by up to 30% with regular use.

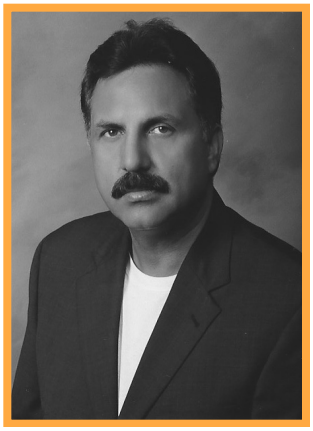
BEMER is a non-invasive and innovative technology that helps activate the body's self-healing mechanisms, and supports cellular recovery, detoxification, regeneration and enhanced performance.

BEMER Medical Symposium

Presenters and Panelists

The Science of BEMER & Case Studies

Dr. Joshua Berka, ND- a nationally board certified Naturopathic Physician and Diplomat of Acupuncture. His focus is primarily in family medicine, including advanced approaches for treating acute and chronic disease. Dr. Berka uses a functional medicine approach, specializing in the prevention and management of metabolic related diseases, and deploys non-invasive treatment interventions for pain management. He serves as a medical consultant for BEMER medical Group in the USA and abroad.



BEMER, an Essential Part of Home Health Care

Dr. Maninder S. Guram, MD - received his diploma in Gastroenterology and Hematology. Trained in internal medicine and gastroenterology at Southern Illinois University and University of South Carolina. Has been in practice for 24 years, currently in Houston, TX.

Using BEMER in Your Medical Practice

Anne Bernard, L Ac & Naturopath - educated in France and Canada as a Naturopath and in the USA for Acupuncture. Her practice is located in Petaluma, CA where she has actively integrated the use of BEMER for a wide variety of conditions with her patients for more than 12 years.

BEMER- An Incredible Health and Career Opportunity

Chitvan Malik, CEO BEMER India - has a Masters in Education, is a certified Clinical Aromatherapist and a Wellness educator for the last 15 years. Since 2008, she has been passionately speaking about BEMER at medical and scientific symposiums throughout the world. In 2009, she became the Founder/CEO of BEMER India. She is dedicated to educating people about the importance of Physical Vascular Therapy BEMER.
